

Welcome to ROMEXPO, the city of the city!

Please note that you can enter the **ROMEXPO** Exhibition Center only after going through the **epidemiological sorting procedure**.

The **Green Certificate** allows the access to the event, but it is also allowed to those who had a **negative result of an RT-PCR test**, but not older than 72 hours, or a **rapid antigen test**, no older than 48 hours. **Tests must be performed in an authorized medical facility**. We have also prepared a test point in parking lot B. **GRAL Medical** team performs fast antigen tests at the price of only 25 lei.

We have taken all the necessary measures to ensure that the time spent in the **ROMEXPO** Exhibition Center is safe! We hope you have a pleasant experience! Everything is very simple and easy to follow.

cover your nose and mouth with a mask (**this measure is mandatory throughout the visit, both inside the pavilions and outside**);

follow the corridors, the signs and the entrance/exit doors;

maintain 2m distance from each other.

avoid physical contact with interlocutors - hugging and shaking hands are not recommended;

sneeze and cough only in the fold of the elbow or on the upper arm.

disinfect your hands as often as possible (disinfectant devices are installed on the exhibition route).

Thank you!
